

**Diabetes Nurse Educator
(Permanent Part-time)**

The Diabetes Nurse Educator will be responsible for working within a primary health care framework and a self-management model of service delivery. The successful candidate will provide clinical nursing-based care, education, and consultation to diabetes clients and their families/caregivers within the Diabetes Education Program and for supporting virtual patient consultations via Ontario Telemedicine Network (OTN). Additionally, the successful candidate will support development of clinical nursing skills amongst nursing staff within the Emergency Department and Medical/Surgical unit. The educator will model quality patient care and professionalism. They will assist in the onboarding of new nurses to develop the knowledge and skills required for practice within the clinical environment and will provide ongoing coaching and support to enhance the learning experience. The educator may have other duties assigned to them by the VP Patient Care and CNO to assist with clinical education of staff.
